

SUPERKIT BY-PASS VALVE AND CARTRIDGE FILTER

- Maximum flow with minimum pressure loss
- Single-handle by-pass valve for easy operation
- Optimum prefiltration for best system performance
- Quick filter changes don't require tools
- Large 1.25" plumbing connections

What Makes the Kinetico SuperKit® Different?

High Flow System: Entire system uses 1.25" connections to deliver the highest flow at the highest pressure. Perfectly suited for larger plumbing.

Single-Handle Control By-pass: Easy-to-operate valve with color-coded positions for service, by-pass and off.

Quick-Change Filter: Removes sediment to protect your water treatment investment. Easy pressure relief. Tool-free filter changes. No lost wrenches.

Variety of High Performance Cartridge Options:

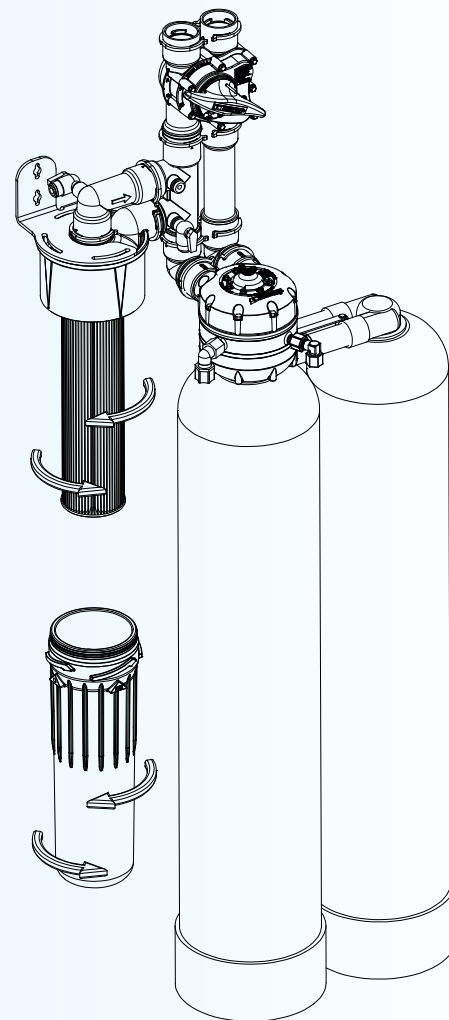

High flow cartridges offer a large surface area for improved filtration.

Convenient Connections: Makes the addition of drinking water systems and pressure gauges simple, easy and accessible.

Robust Construction: Heavy-duty materials and lock-together parts stand up to adverse conditions and corrosive environments.

Outstanding Warranty: Dependability and peace of mind.

Note: Sumps are available in amber (10" only) and black (10" or 16").

Kinetico SuperKit shown with Kinetico Premier Series® S250 XP water softener, sold separately.

Independent Laboratory Certification

Select Kinetico products are Tested and Certified by Independent Laboratories such as WQA. For specific claims and certifying laboratories, refer to performance data sheets or consult your local Kinetico Dealer.
